

For a perfectly smooth surface: Adeo proposes the application of the CTS (Constant Tensio System) and of the classic tensioning method also to Professional, the screen with the characteristically flat ends devised for the Audio Visual sector. The first solution is based on two counterweights, hooked onto hinges attached to the ends of the base, which stretch rigid cables threaded through eyelets positioned along the sides of the canvas. Thus self-tensioning is ensured through time, and rolling is facilitated by the fact that the eyelets remain outside the projection surface. In this system technical requirements are first. The second solution has been designed to satisfy even the most demanding aesthetic needs. The lateral curving of the canvas, produced by the elastic cables threaded through the eyelets, not only ensures crease-free screen rolling but also has winning looks. Available with 50 or 70 mm lateral black borders.

See page 155 for Technical data

Create your own screen with the PSS

- > **Personalized dimensions:** width and height
- > **Roller type:** motorized or radio integrated
- > **Case:** with standard or quick-installation case
- > **Case color:** available in white, black or custom color
- > **Height of Top:** from 5 to 45 cm
- > **Projection surface fall:** front or rear with optional reverse-roll installation
- > **Side of command/motor:** right or left

Projection Surfaces (see page 6)

- > ReferenceWhite / ReferenceGrey
- > VisionWhite / VisionWhitePro
- > VisionAcoustik
- > VisionRear DB and VisionRear, only without black borders

Surfaces Fireproof Certifications

Standard Accessories

- > Kit with wall or ceiling mount brackets
- > Unipolar selector switch
- > Remote control (only for radio-integrated version)

PSS Formats

1:1	1.33:1	1.60:1	1.78:1	2.35:1	2.37:1	2.40:1
	4:3	16:10	16:9	21:9		

Optional Accessories

- > Extension brackets for screens up to 60 cm
- > Receiver and RF remote control for motorized screen (3 modalities: basic, automatic and compatible with domotic systems)
- > Receiver and infrared remote control
